Purchase Card	VI	480400 - 480499, 485900 - 485999 486500 - 486699	16

Valid Lengths

A series of one or more numbers indicating the valid length(s) of the account numbers for the card type being defined. If a card type has more than one valid length, separate each card length with a comma as shown in the example. To disregard card length for this card type, enter " " for this field.
